

# Ever Easy™

By Ox Controls™

## THE WORLD'S **EASIEST** GARDEN BIBB

### EASY TURN GARDEN BIBB

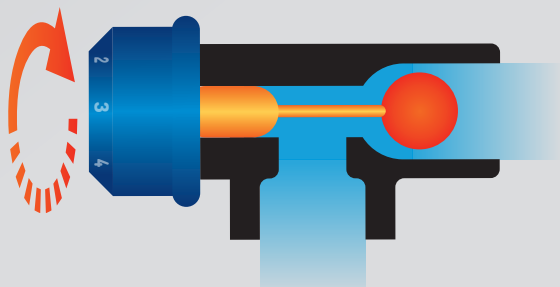

A gentle turn is all that is needed!

The all new patented Ox Controls™ Technology provides a life time of easy turn bibbs and hand held sprays that are drip free, environmentally friendly and of great assistance for arthritic and elderly people.

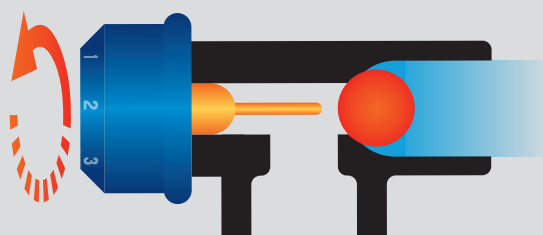

**Ideal for new homes  
or retrofitted on  
established homes.**

### EASY TURN SYSTEM

With **water pressure assisted operation**.  
How it works:

**Easily** rotate towards ON for a gradual increase in water pressure. A partial turn will minimise the volume of water when in use.

To turn off, return to original OFF position. A partial turn to the OFF position will minimise the volume of water when in use.

# EASY TURN GARDEN BIBB

A gentle turn is all that is needed!

## FEATURES

- Tough, strong and reliable materials backed with a five year product guarantee.
- Prevent water supply from contamination with inbuilt automatic back flow suppressor.
- Ideal for those with arthritis with minimal movement and no stiffening or sticking.
- So easy to turn on and off with our patented ergonomic and effort free operation.
- No maintenance required with the new valveless design.
- Available in a range of inlet sizes (both male/female): ½", ¾", 1".
- Colour option to distinguish recycled and grey water sources.
- Innovative patented design with potential indoor applications as well.
- Decrease water wastage by eliminating drips.
- Patented in USA, Australia, New Zealand, China, and Canada. Patent Pending in Brazil and Europe.
- Compliant to all relevant Australian and International Standards.

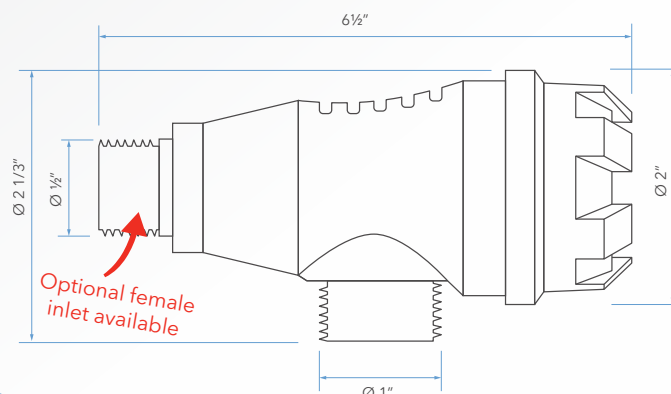

As a Tasmanian Innovation, a percentage of sales will be donated to the Tasmanian Save The Devil Program.
